Or how long you expect the job to take (do you have clients?) Try If you're working for pay professionally, you should be posting in If you're working with RED, finishing via Resolve?If you're editing for yourself, and it's a hobby? Is probably the right place.. I currently do not edit anything in 4k just full HD Would one of these 2006 desktops run as fast as my laptop?Or perhaps faster? ' FAST Mac Pro OSX 2015 -2.

• Someone to do your homework for you — Do your own work • Help in circumventing copy protection or other forms of content protection — That's piracy, and that's not allowed here.. • A place where you can 'fish' and take advantage of people If you want to post a job, we expect you to quote some sort of pay - hourly, daily, weekly etc.. New to editing? (Yes, we know it's 2 years old) If you didn't read that, then you probably won't read this: Looking for something better than Windows Movie Maker?Then either the Freemium (easier) or the more powerful (harder) Related Communities: • — Want to see what a Professional's timeline looks like? • — A subreddit more about the production side of making videos, that is working with cameras, microphones, lighting, and so forth • — Specializing in motion graphics • — Reddit's own special effects subreddit • — A more generalize filmmaking subreddit • Crime? - Reddit Bureau of Investigation (best place to get a crime solved) Great post on.. There are other subreddits where that is more appropriate, like,,, and even has monthly show-off threads.

THREE IMMEDIATELY Bannable Offenses: • Posting your 'video editing services' (No, not free either) • Discussion or advocacy of piracy • Referral programs Be respectful.. Loaded with Tons of amazing Software-Not trial Versions, just plug n play This unit also has blazing fast wifi card that easily reaches 150mbps download and upload speeds depending on your internet provider and router.. Posts about these subjects will be deleted otherwise Other rules: If you want to post a job, we expect you to quote some sort of pay - hourly, daily, weekly etc.. Upgraded to 16gb ram Loaded with 1TB Hard Drive Fast genuine Apple 2600 XT Video card.. • A complete substitute for tech support — There's no problem asking about common errors or problems, workarounds for glitches, annoying limitations, but at some point, especially with some of the less commonly used tools, like PowerDirector and Filmora, you may wish to contact the developer's tech support services as well as posting here.. I'm messing around with video I'm going pro with my photography I'm doing weddings and more I've sold over 20 of my personal photos (not wedding or now the reason why i want a Mac is I use one at school for photo editing and video and i just like it more then my pc.
